Shown on front cover THIS KITCHEN was created with the LaGrange inset door style in Maple finished in Marshmallow Cream and the LaGrange inset door style in custom Hickory finished in custom Hazelnut with Chocolate glaze and Cottage Distressing. Standard slab drawer headers were used.

EXACTLY WHAT YOU WANT

We can create cabinetry that matches any paint swatch. Bring the swatch to your Fieldstone Cabinetry dealer—that's all it takes to start your custom Tinted Varnish project.

If your heart's desire is a color you spied in a magazine or in a fabric, or you have furniture you want to match or complement, talk to your Fieldstone Cabinetry dealer about preparing a sample of wood that will guide us in creating a stain for your cabinetry.

A custom stain takes more legwork (from both you and us) than a custom paint, but we'll put our heart into it. With good direction from you and our experience creating custom stains, the legwork will result in a beautiful finish you'll be proud to have in your home.

Talk to your Fieldstone Cabinetry dealer about the additional costs and delivery times for a custom color.

BUTTERSCOTCH Shown here on the Aero door style in Alder.

Butterscotch is a Stain finish.

To speckle the Chateaux finish, a subtle stain in dark brown is randomly applied across the surface of the finish. These spots will be no larger than the diameter of a pencil eraser.

SPECIALTY COLORS are cabinetry finishes that take your room to a whole new level. Artistic effects are added to popular colors to add character and in some cases, a vintage feel.

CHATEAUX IS A SPECIALTY COLOR FOR CHERRY CABINETRY

Chateaux is created by randomly applying several distressing techniques, softening all edges, padding the edges to create shadowing, and adding speckling to accentuate the distressing. Patina is accomplished with **1. rounded corners 2. worn edges 3. knife cuts 4. worm holes 5. rasping 6. dips and 7. light chain distressing** that we hand apply to drawers, doors and throughout the cabinetry. A protective topcoat completes the look. The finish is oven cured for durability. Brown Chateaux colors are shown on this page. Chateaux is available on Cherry door styles.

CHATEAUX CAPPUCCINO Shown here on the Arcata door style in Cherry.

VILLA BLACK

A SPECIALTY COLOR FOR MAPLE CABINETRY The Villa finish results in a look that suggests brush strokes along the face of the doors and drawers, and any other finished part of the cabinetry. The color and brush stroke technique will vary from door to door and will blend throughout the cabinetry. Available on Maple door styles.

AMARETTO

A SPECIALTY COLOR FOR MAPLE CABINETRY Amaretto is a Black finish with rounded corners, worn edges and light chain distressing. Additional worn areas on center panels and door frames expose golden butterscotch tones. Available on Maple door styles. Amaretto can receive Old World Distressing, illustrated on pages 68–69.

SPECIALTY COLORS are cabinetry finishes that take your room to a whole new level. Artistic effects are added to popular colors to add character and in some cases, a vintage feel.

SPECIALTY COLORS are cabinetry finishes that take your room to a whole new level. Artistic effects are added to popular colors to add character and in some cases, a vintage feel.

CHATEAUX BRITTANY Shown here on the Tremont door style in Cherry. Chateaux Brittany is a Stain-based Specialty Color.

CHATEAUX BRITTANY

A SPECIALTY COLOR FOR CHERRY CABINETRY Chateaux is created by randomly applying several distressing techniques, softening all edges, padding the edges to create shadowing, and adding speckling to accentuate the distressing. Patina is accomplished with **rounded corners**, **worn edges, knife cuts, worm holes, rasping, dips** and **light chain distressing** that we hand applied to drawers, doors and throughout the cabinetry. A protective topcoat completes the look. The finish is oven cured for durability. Chateaux is available on all Cherry door styles. Our entire selection of Blue cabinet colors can be viewed on www.fieldstonecabinetry.com.

SPECIALTY COLORS are cabinetry finishes that take your room to a whole new level. Artistic effects are added to popular colors to add character and in some cases, a vintage feel.

A SPECIALTY COLOR FOR ALDER AND RUSTIC ALDER CABINETRY Homestead Blueberry is a blue tinted varnish with several distressing techniques that are applied randomly and heavily. Distressing marks are rounded corners, worn edges, knife cuts, abundant worm holes, rasping, dips, light chain distressing and chiseling. They are applied to drawers, doors and throughout the cabinetry. A protective topcoat completes the look. The finish is oven cured for durability. Homestead Fog is available on Alder and Rustic Alder door styles.

HOMESTEAD BLUEBERRY

Shown here on the Fullville door style in Rustic Alder. Homestead Blueberry is a Tinted Varnish-based Specialty Color.

DISTRESSING ILLUSTRATED

Fieldstone Cabinetry uses several techniques to add character and appeal to cabinetry. They are illustrated on these two pages. All of our distressing marks are added by hand. There is no machine and there is no robot that can successfully duplicate what the eyes and hands of an artisan achieve through personal handling of the cabinetry.

Chiseling is used to create Homestead.

Dips are used to create Chateaux and Homestead and they are included in Old World Distressing.

Rounded Corners are used to create Amaretto,

Rounded Corners are used to create Amaretto, Chateaux and Homestead. They are included in Cottage Distressing and Old World Distressing.

Rub Through is used to create Amaretto.

MATTE TOP COAT

Speckling is used to create Chateaux.

FINISHING TOUCH

MATTE TOP COAT

Matte Top Coat is a less reflective finish than our standard sheen. One way to describe Matte Top Coat is to use terms from the paint industry. A satin or flat option is comparable to Matte Top Coat, and semi-gloss is comparable to our standard

sheen. Matte Top Coat is available on all stain-based finishes.

- Matte Top Coat on a stain is available on all wood types at an upcharge.
- Matte Top Coat on all stain with glaze combinations is free of charge.
- Matte Top Coat on all stain-based Specialty finishes is free of charge.

STANDARD TOP COAT

Shown here on the Leesburg door style in Map finished in Butterscotch with Chocolate glaze.

artisan effects

Knife Cuts are used to create Chateaux and Homestead and they are included in Old World Distressing.

Padding is used to create Chateaux.

Rasping is used to create Chateaux and Homestead and it is included in Old World Distressing.

Abundant Worm Holes are used to create Homestead.

Worm Holes are used to create Chateaux and are included in Old World Distressing.

Worn Edges are used to create Amaretto, Chateaux and Homestead. They are included in Cottage Distressing and Old World Distressing.

A LIGHT TOUCH

Spattering is a dark stain, hand applied randomly to the cabinetry.

- Spattering on stain with glaze combinations is free of charge.
- Spattering on an unglazed stain is available on all wood types at an upcharge.

Light Chain Distressing is used to create Amaretto, Chateaux and Homestead. It is included in Cottage Distressing and Old World Distressing.

- Light chain distressing on Tinted Varnish with glaze combinations is free of charge.
- Light chain distressing is available at an upcharge on:
- all stains on any wood type
- all stain with glaze combinations on any wood type
- all Tinted Varnish on Maple, Oak or Quarter Sawn Oak

WEATHERED DRIFTWOOD CHOCOLATE Shown here on the Buena Vista door style in Oak with Matte Top Coat. Weathered Driftwood Chocolate is a Stain-based Specialty Color.

WEATHERED SNOW BOTTLE GREEN

The Weathered finishing technique opens up the soft grain of the wood, so you'll see more depth and more texture. The beauty of real Oak takes center stage! A protective topcoat completes the look. The finish is oven cured for durability. Weathered Snow is available on select Oak door styles and color combinations.

Arcata door style in Cherry finished in Cappuccino with Chocolate glaze and Old World Distressing

Monte Carlo door style in Hickory finished in Cappuccino with Chocolate glaze and Old World Distressing

Old World Distressing blends your new cabinetry with today's popular distressed furniture pieces. Certain distressing techniques are randomly applied to the face of your cabinetry throughout the design. These techniques (illustrated at right) are:

- 1. rounded corners
- 2. light chain distressing
- 3. worm holes
- 4. dips
- 5. rasping
- 6. knife cuts
- 7. worn edges.

Look for this icon on pages 68-69 for color combinations that can receive Old World Distressing.

old world distressing artisan effects

cottage distressing artisan effects

WORN EDGES

cottage distressing

LIGHT CHAIN DISTRESSING OPTIONAL

Cottage Distressing is a sweet, welcoming look created with rounded corners and worn edges. A third technique, light chain distressing, is optional. Glaze brings out the wood's unique texture, and a durable topcoat completes the process, protecting both the color and the marks.

Cottage Distressing is available on:

ROUNDED CORNERS

- Any Stain with Glaze combination. See page 58.
- Any Tinted Varnish with Glaze combination. See page 59.

EDGE PROFILES

Many door styles can receive a variety of edges. Maybe you've found a door that you love, and you want to tweak it a bit. One place to start is the outside edges of a door. Here we've illustrated what is meant by the outside edges of a door, and how each edge looks.

Look for a listing of optional edges under doors pictured on Pages 72-80.

DRAWER EDGE

DOOR EDG

DECORATOR EDGE

Hudson door style with single furniture pegs

0

Hudson door style with double furniture pegs

FURNITURE PEGS

This option gives rustic character to doors and drawers. A $\frac{5}{16}$ square wooden peg is driven into a $\frac{3}{6}$ diameter drill hole. The gaps between the peg and the hole are visible and are not filled. Single and double pegs (illustrated above) are available. **Look for this symbol** \square **under doors pictured on Pages 72-80, 84-86.**

Hudson door style without furniture pegs

REGENT PROFILE

The Regent Profile has three graduated steps ascending to the center of the drawer header front, adding dimension and detailing for minimal cost.

Look for this symbol R under doors pictured on Pages 72-80.

PROFILED DRAWER HEADER

SCOOPED

Select doors can receive a Profiled drawer header. Compared to a standard slab drawer header, a drawer header with a Scooped Profiled edge or a Rolled Profiled edge has a more distinct and decorative look.

Depending on which profile best complements the door style, the profile we add will be "Scooped" or "Rolled".

Look for the symbol PS or PR under doors pictured on Pages 72-80.

DECORATIVE STORAGE FOR DRAWERS Shown above with clear glass. Inserts are shown on pages 94-95.

THIS KITCHEN was created with the Harbor door style in Maple finished in White with Chocolate Glaze. Optional decorative storage drawers were used.

FIVE-PIECE DRAWER HEADER

A five-piece drawer header is standard on select door styles.

A door's standard drawer header is listed under each door on Pages 72-80 and 84-86. Look for the

words "Drawer header is five-piece." A five-piece drawer header is also an

option on many door styles. Those door styles are shown here.

Look for this symbol "5" under doors pictured on Pages 72-80 and 84-86.

wood types

Alder is a softer wood with a fine straight grain and even texture. Color is light brown with yellow or reddish tinge, with little difference between heartwood and sapwood. Alder does not evolve in color or darken when exposed to light or heat as other woods do, and takes stains and finishes well. More than some of the other woods, care must be taken to avoid damage due to its softer nature. Some small tight knots can be found with standard Alder.

Cherry displays a distinctive grain pattern and warm color. The color ranges from nearly white to dark reddish brown. Dark pockets, pin knots, and random streaks are common. More than most woods, Cherry will darken when exposed to light, especially in light stains. The more sun Cherry receives, the faster it will darken. This will be most evident in new wood and will slow as it ages. Hickory is a heavy, strong wood. It is known for flowing, vibrant grain patterns and dramatic color variations. Hickory can also exhibit random pecks, burls, and mineral streaks. Hickory's color ranges across a wide spectrum, from nearly white to dark brown.

Rustic Alder and Rustic Hickory refers to the Rustic versions of these wood types. It is characterized by knots, burls and mineral streaks found on center panels, stiles and rails of the door, and on the drawer headers, which could impact hardware placement. Knots will be sound and will be closed, but certain angles could show light through the knots. Glazing rustic wood types will enhance these unique characteristics.

▲ THIS SYMBOL IS SHOWN UNDER DOORS ON Pages 72-80 and 84-86 TO INDICATE THEY ARE AVAILABLE IN RUSTIC. **Lyptus** is a hard, fine-grain hardwood with a rich, warm tone. Lyptus comes from fast-growing eucalyptus trees that are ready to be harvested within 14 to 16 years of planting. These trees are grown on non-tropical, certified plantations. Color variations can be extreme, but they are minimized when you choose a darker stain. More than most woods, Lyptus mellows and darkens with exposure to light. When Lyptus is stained in a dark color, it looks very much like mahogany.

Maple is a versatile hardwood with a fine, smooth grain. It varies in color from nearly white to a slightly reddish brown. Mineral or sugar streaks occur naturally in Maple and can vary from piece to piece. Variations will be more noticeable in lighter stains.

Oak is a strong wood with a long linear grain, often displaying tiny rays. You may notice small pinholes and tight knots. Color will range from golden blonde to deeper reddish tones. This cut of Oak is known as flat sawn. **Quarter Sawn Oak** is milled at an angle of 60 to 90 degrees from the grain, allowing rays and flecks to become visible, giving the wood a unique, often vintage, character and dimension.

Walnut is a strong, stable American hardwood known for wide color variation. It ranges in color from creamy white to a medium purplish brown. Walnut cabinetry will have both flowing grain and straight grain. This combination is a treasured characteristic of Walnut, and is showcased when Walnut is finished in Natural. However, Walnut takes all available stains well. Walnut is a favorite choice for furniture and furniture grade cabinetry, such as Fieldstone Cabinetry.

FIELDSTONE CABINETRY IS ENVIRONMENTALLY RESPONSIBLE.

Fieldstone Cabinetry is a certified brand in the Kitchen Cabinet Manufacturers Association (KCMA) Environmental Stewardship Program. The program recognizes companies that demonstrate an ongoing commitment to sustainability including the use of environmentally responsible materials in cabinet products and minimized environmental impacts realized through recycling wastes and using low emission coatings. By achieving this certification, Fieldstone Cabinetry is going beyond minimum requirements and demonstrates leadership in growing a sustainable company.

Fieldstone Cabinetry is CARB II compliant and ESP certified. Kitchen Cabinet Manufacturers Association Environmental Stewardship Program

All products impact the environment. For ESP program criteria, visit kcma.org.

Overlay and Inset Door Styles

Overlay cabinetry has doors that "lay over" the top of the cabinet's face frame. There are two styles of overlay doors: Modern and Traditional. A Modern door style shows less of the cabinet's face frame than a Traditional door style.

A Traditional door style shows the most of the cabinet's face frame. See images on page 72.

Inset cabinetry has doors that are precisely "set into" the cabinet's face frame. We manufacture inset cabinetry with tight reveals and take great care to create square, true cabinets. When adding inset cabinetry to your home, consider.

- Quality installation is a must. If cabinets are not installed properly, doors may appear warped even though they are not. Every homeowner should expect their walls and floors to have variations; a well-qualified installer can properly shim inset cabinetry so it does not become out of square.
- 2. Homeowners should be prepared to adjust their doors seasonally as temperatures change.
- 3. Wall, wall base and utility wall inset cabinets are 12" deep. The standard inside storage dimension is 10³/4". Unless the cabinet is modified to a greater depth, the cabinet will not accommodate oversized plates or dinnerware.

WARRANTY Fieldstone Cabinetry's construction,

materials and all finishes are covered by a Limited Lifetime Warranty.

STAIN

A stain is a basic yet substantial finish that adds color to wood while revealing the beauty of the grain. The wood type affects the color of the stain, so the same stain will look different on each wood type. In some cases, the difference is dramatic. For the richest, most consistent color coverage, we apply the stain and then hand rub it into the wood. There are no machine shortcuts: elbow grease is the only way to coax the luster from stained wood.

TINTED VARNISH

The best way to describe Tinted Varnish is to say it gives cabinetry a paint-like finish. However, our Tinted Varnish is much more durable than paint. Throughout the country, this type of finish is also called "enamel" or "opaque". Tinted Varnish is available on Maple, Oak and Quarter Sawn Oak cabinetry, and each wood yields a different look. The grain of Maple wood is concealed by Tinted Varnish and the grain of Oak and Quarter Sawn Oak shows through Tinted Varnish. Please note, when Tinted Varnish-based cabinet colors are specified, veneered center panels in doors are replaced with HDO material, and solid 3/8" reverse flat panels and solid 5/8" raised panels in doors are replaced with 100% MDF. These materials assure the best possible finish.

GLAZE

Fieldstone Cabinetry has four glaze colors: Chocolate, Ebony, Latté and Nickel. Glazes are available to layer over both stains and Tinted Varnishes. We apply the glaze by hand and then wipe it off by hand. When our craftsman wipes

off the glaze, he or she can best use the glaze to define the details in that particular kitchen. The profiles on a door and drawer, and other details on cabinetry, such as corbels, rosettes or shells, are stunning when glazed. We glaze every part of your cabinetry by hand-doors, drawers, moulding and panels.

Specialty Colors are cabinetry finishes that take your room to a whole new level.

Artistic effects are added to popular colors to add character and in some cases, a vintage feel.

This brochure is item #3335 and is called the "Doors and Finishes" brochure. This brochure was printed in March 2021.

Dealers, this brochure includes these recent product introductions: Bottle Green, Carbon, Creekstone, Currant, Homestead Blueberry, Matte Top Coat, Mineral Gray, Moon Bay, Pebble Gray, Simply White, Tarragon on Hickory and Maple wood types, Villa Marshmallow Nickel, Weathered, Wild Honey and Wings finishes; and Adair, Chelsea, Claiborne, Clermont, Livingston, Reinbeck, Revere and Richfield door styles.

Accuracy of all reprinted color is subject to printing limitations. Please bear in mind that variation is inherent in wood, and actual finishes may differ substantially from what you see here.

In keeping with our practice of continuous product improvement, Fieldstone Cabinetry may adjust specifications in design and materials as conditions require. Some components may utilize differing materials to ensure a high-quality product in all applications.
