Cosentino, Towards A True Circular Economy

Renewal of regulation
ISO 14001:2015

We promote sustainable
products with up to
25 years warranty

Mobility Strategy
Our sustainable mobility
strategy reduces over 1,200
tons of CO₂ emissions per year

We obtained our
**Environmental Product
Declaration (EPD)**
for Silestone®

Our agreement with
shipping companies
reduces overall CO₂
emissions by
4000 tons per year

The data provided refers to activities at
the Cantoria Industrial Park in 2018 (Almería, España)

Water Management

Water is a limited resource. That is why we have adopted the following measures in the Dekton® manufacturing process:

- Four tanks located in different locations of the factory allow for the collection of cleaning water that will be reused in the process.
- A system to get water through reverse osmosis.
- A water pouring and purification system that enables water used in the process to be treated and saved.

Atmosphere

Protecting the air is fundamental, not only for the environment, but also for our health. The measures adopted in the Dekton® manufacturing process include:

- Airtight transport systems for micro raw material from the truck to the mill.
- Integrated transport systems that minimize potential emissions from the point of origin of the colored raw material (atomisers) to the point of storage (24 hermetic silos).
- Centralized systems for the collection and purification of particles using seven-bag located at various points throughout the factory.
- Installed vacuums for the suction, treatment and recovery of fumes from the ovens.
- MDR and SPR systems for the recovery of heat from the ovens.

Sustainable Model

Sustainable mobility plays a fundamental role in Cosentino's sustainability policy. For this reason, more than 1.2 miles of cycle paths have been built at the new Dekton® industrial park, to give the ability to bike between buildings.

We also encourage the use of electric vehicles for transporting people and supplies around the industrial park.

Energy Efficiency

In addition to all of the other energy saving methods that we have adopted, we have installed skylights to maximize the use of natural light. For areas where light is needed, we have installed time controlled interior and exterior LED lighting to reduce the electricity used.

Waste Evaluation

The following systems have been installed for the recovery of waste generated during the manufacturing process:

- Various facilities for reusing crude waste before the heat treatment process.
- A system of dust recovery at the various emission capture points.
- Cleaning machinery (sweeping-mopping type) with water recycling system.

Green Spaces

270.000 sq ft of green spaces have been created around the new industrial park. More than 200 trees and native plant life have been planted that suit the dry conditions of the area.

Present All Over
The World To Be
Very Close To Our
Customers &
Their Projects

• COSENTINO CITY

Our Cosentino CENTERS are the heart of the company no matter where we might be in the world. Our warehouses are available to those curious and passionate about design who may want to touch and see our products on a real scale. We are witnesses of the chromatic richness that each Dekton® slab brings to the world of design. Our Cosentino CITIES, which are located in some of the most iconic cities around the world, create spaces so that anyone can discover Dekton® and the latest market trends by using all five senses. Besides the fact that you can use them as your own office, they are spaces with configurations that encourage meetings, classrooms, exhibitions, etc. We consider them to be social, dynamic places where you can exchange ideas.

Mission

*To be the leading company
that, together with our clients,
responsibly imagines and
anticipates high value, innovative
surfaces for the world of
architecture and design.*

Vision

To be the global leader in the surfaces market via our brands, offering innovative architectural solutions that provide design, value and inspiration to our clients' lives.

Silestone®

Quartz Surfaces

Silestone® offers extreme durability in the kitchen, bathroom and other spaces where traffic and daily use is high. Enjoy the endless color possibilities.

The advantages of Silestone® are numerous. Silestone® is low maintenance and has a high resistance to stains and scratches, as well as a low liquid absorption rate. Silestone's nearly indestructible surface is stain, scorch and scratch resistant. With a very low absorption index and a minimal number of joints, Silestone is perfect for spaces where liquid exists.

Silestone® is resistant and continues to be enjoyed over time, going beyond the surface. It is manufactured in more than 100 colors, three textures and various formats, making it highly versatile. Colors range from muted tones that are generally associated with natural stone to vibrant colors that are not found in nature.

Silestone's color uniformity and consistency allows for an unlimited number of edge details including but not limited to: bevel, ogee, bullnose and waterfall. It is also malleable enough to be used in large pieces without requiring joints. Silestone is the perfect choice for kitchen, bathroom, flooring, cladding and unlimited applications.

FEAUTURING
New Colors

We invite you on an architectural and sensual journey to the heart of the city. LOFT will be your companion: a collection that reviews, in terms of design, the character and essence of five iconic places.

Two new proposals that are born with the aim of giving versatility, luminosity to both cold and warm spaces. Discover Eternal D'Or and Bella. Elegant and vibrant colors. Natural look and feel. High resistance and durability. Endless veins. Silestone's 5 new colors are inspired by concrete, a material capable of instilling emotions through its textures, finishes and shades, thus creating a new relationship between people and objects.

Introducing the new Silestone Loft Series with HybriQ+ Technology[®]

More Beauty. More Sustainable. Less Impact.

Silestone[®] with HybriQ+ Technology[®]

**100%
Renewable
energy**

We are committed to the use of circular energy and sustainable products. That is why we defend the use of renewable energies.

**98%
Recycled
water**

We use 98% of recycled water in our production process, thus reducing the ecological impact.

**Made with
Recycled Glass
& Minerals**

A generation of innovative surfaces with a hybrid formula made with minerals and recycled glass.

SILESTONE®

Benefits

Silestone® is made out of Natural Quartz created to provide color and texture for bath and kitchen surfaces. Thanks to its physical and chemical properties, a result of years of investigation, it guarantees maximum safety and hygiene.

Resistance to Stains

Silestone® is a non-porous surface which is highly resistant to stains from coffee, wine, lemon juice, oil, vinegar, make-up and many other daily-use products.

Resistant to Scratching

Quartz is one of the hardest minerals that exists. This makes our products very durable, with a high level of resistance to external damage.

Resistant to Impacts

Silestone® high level of resistance to impacts allows very hard objects (pots, trays, etc.) to be handled with total ease.

*Check availability on Silestone ® colors with N-Boost

N-Boost Technology by Silestone®

The hydro- repellent properties of N-BOOST prevents the clinging of common liquids in kitchen and bathroom spaces. This is specially useful when liquids remain on the surface for hours: with N-BOOST preventing them from binding to the surfaces. Thanks to N-BOOST, cleaning is much simpler.

Easy Clean

Repels Any Type of Liquid

Surfaces Shinier than Ever

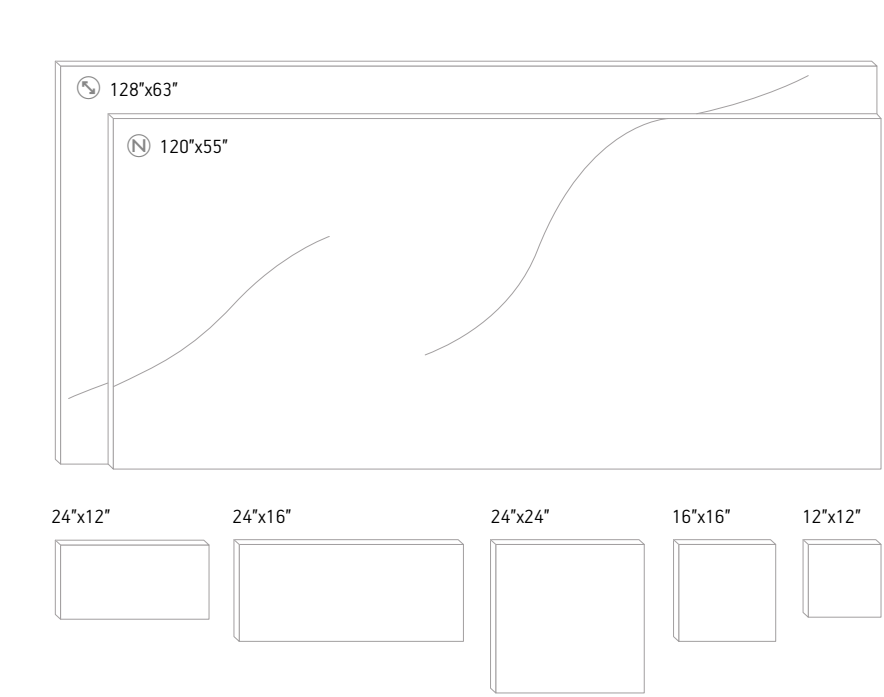

More Intense Colors

SILESTONE®

Available Tile and Slab Sizes

Silestone colors are available in regular slabs*
55"x120" and Jumbo slabs up to 63"x128".
Silestone is available in the following tile formats:
12"x12", 24"x12",24"x16",
16"x16",24"x24" and 36"x12"

Jumbo Size

Cosentino® is one of the few manufacturers to offer quartz slabs in Jumbo format (maximum 63x128"). This format allows the creation of large surfaces with a minimum number of joints. It allows versatility of design and greater hygiene. It allows the manufacture of large islands in just one piece. This way, we optimize the use of the slab and reduce waste.

*Check available slab format with your local center.

SILESTONE®

Thicknesses

Silestone® slabs are sold in thicknesses of 1.2, 2 and 3cm. Different pieces can also be combined to create thicker edges.

*Measurements given in centimetres

SILESTONE®

Textures

With the aim of being adapted to your style, Silestone offers you different textures to any of your chosen applications. Polish, Suede or Volcano are three possibilities that make your imagination fly and have your countertop, flooring or cladding with the texture that you have always wanted.

Suede

The Suede or matt finish, recently improved by Silestone® offers a flat, non-rugged feel that provides a unique look and feel on account of its beauty and elegance.

Volcano*

Volcano is a rustic texture, rough to the touch while also being smooth. It is the result of research into how to create a rugged surface that is both attractive and pleasant to the touch for use in kitchens and bathrooms.

Polished

All the colors of Silestone® are available in this texture that is smooth to the touch as well as having a consistent, intense, and uniform color.

*Special order.

Bathroom Countertops

Bathroom Collection by Cosentino is an unique concept in the architectural sector based on the use of single materiales that offer superior performance and remarkable beauty. Silestone is a surface made with quartz available in more than 70 exclusive colors.

Silestone possesses the ideal characteristics for bathroom countertops. With a low absorption level and virtually no joints, the bathroom surface will remain unchanged after its daily use.

Bathroom Cladding

Bathrooms are personal spaces where one should feel relaxed and refreshed. There's no reason these areas should be drab or feature less design!

Silestone reinvents the traditional design of the bathroom space with custom-made large format panels. It can be installed vertically as wall cladding or horizontally as flooring. This customization eliminates joints and creates visual continuity.

Bathroom Flooring

Bathrooms are a high traffic area and the durability and resistance of Silestone reduces wear on bathroom floors. Its minimal maintenance requirements and low porosity make it the ideal product for rooms in which water and other personal hygiene products are used. Environments with damp conditions or changes in temperature require flooring that offers outstanding performance. Silestone not only meets these requirements, it exceeds them with the added benefit of attractive design.

**Bathroom
Sinks**

Silestone Sinks are built with a unique and innovative design for flexibility and elegance.

DEKTON®

Ultracompact Surfaces

Dekton® is a sophisticated mixture of the prime materials used to manufacture glass, modern porcelain, and quartz surfaces, employing an exclusive technological process called Sinterized Particle Technology, which involves an accelerated version of the metamorphic changes that natural stone undergoes when exposed to high pressure and temperature over thousands of years.

Dekton® uses a 25,000-ton press that turns the panel into a large-format highly resistant ultracompact surface.

Thanks to the manufacturing technology Dekton® employs, you can get colors and textures of varying features, including highly pure and chromatically homogeneous solids, materials with very natural veins and movements, or more daring ranges of colors for any table or furniture.

reinventing itself*

New

A new
Dekton®
color
selection
for 2020

NEW
THE COLLECTION

The Collection combines four chromatic series, each with their own distinct personality: the natural sensitivity of Chromica, Liquid's elegance and fluidity (reserved for our most distinguished clients), the daring and provocative colors of Avant-Garde, together with the versatile and diverse tones of Portfolio.

The result is an exclusive palette of colors that combines the latest trends with a range of materials perfect for everyday projects.

New

When Dekton® becomes Liquid.

NEW
LIQUID COLLECTION

Liquid is the result of collaboration between the Cosentino and Patterity designers team. The London design studio, expert in creating motifs and patterns, highlights the innovative potential of Dekton® as a material.

Each of the shades of this color palette is inspired by the liquid state of the elements. Always faithful to the philosophy of PATTERNITY, the concept of the collection revolves around the beauty of nature, the protection of the environment and the promotion of sustainable design.

Dekton® Shell
Liquid Collection

New

Liquid Collection

Dekton® Sky Liquid Collection

A swirling, marbled, cloud-like pattern which celebrates the scientific principles of fluid dynamics, with flowing grey veins.

Dekton® Shell Liquid Collection

Celebrating subtlety and softness, Liquid Shell honors what lies beneath the waves in the ocean. The pearlescent shade is a varying off-white.

Dekton® Embers Liquid Collection

Liquid Embers represents a meeting point between fire and liquid, a space which lies deep beneath the Earth's surface.

New

Avant-Garde Collection

Dekton® Khalo Avant-Garde Collection

Khalo takes inspiration from Patagonia Granite, one of the world's most sought-after stones due to its unique formation and tones.

Dekton® Helena Avant-Garde Collection

Great richness, perfect balance of gray and white tones, and delicate cracks shine with the depth of onyx- the natural stone that inspired this piece.

Dekton® Laurent Avant-Garde Collection

We've crafted a unique color that stands out with its complex beauty. Its texture plays with contrasting shades and tones.

AVANT~GARDE'20
DEKTON

New

Chromica Collection

Dekton® Feroe Chromica Collection

As the sun goes down, the vast Arctic landscapes are covered in a dark, serene and elegant green. Lichen, herbs and moss cover huge swathes of the islands. This is the magical place where we captured this color. Feroe is a dark matte tone, ideal for creating large, lush expanses.

An elegant, tasteful tone for any indoor or outdoor space.

Dekton® Baltic Chromica Collection

The Baltic is a shallow sea of cold blue. It is vastly unknown, despite being bordered by nine countries. It has witnessed a turbulent and passionate history due to the arrival of Romans and Vikings. This landscape was the inspiration for the second color in the series. Baltic is a dark blue color with a high degree of conceptual and aesthetic purity.

With its serene appearance, Baltic can envelop and add charm to any space, just like the sea from which it takes its name.

Dekton® Orix
Industrial Collection

New

Dekton®
Grip+

Non-slip Flooring

Cosentino has launched the new Grip+, a surface treatment that allows Dekton® to be used on floors where a high level of slip resistance is required.

Dekton® Grip+ is a new surface product that modifies the visible face of the material in a controlled and precise manner, creating a lightly textured surface that gives the product its slip-resistant property.

It retains the pleasant feel of standard Dekton®, and has good slip-resistant properties. This is a completely new product, not an existing product that has been modified.

New

Dekton® Slim 4 mm

Presenting Dekton® Slim, the new, large format surface with an ultra-thin 4-mm thickness that offers unlimited design options and incredible ease of installation and transport.

Bathroom Cladding

Maximum resistance against humidity with minimal joints.

Ideal for bathrooms, Dekton® Slim offers cladding that is ultra-resistant to humidity and stains. A high performing product that does not require any more maintenance beyond a damp cloth.

Its large format measures 126" x 56" covers large surfaces, avoiding a large number of joints and in turn, less dirt.

Kitchen Cladding

Reduced thickness, infinite possibilities

The ultra-thin Dekton® Slim surface, with a thickness of 4 mm, is ideal for the cladding of kitchen walls and cabinets, in a harmonious blend of countertops of different thicknesses. Dekton® Slim is scratch resistant, fire-resistant and stain resistant, just like its other formats.

Furniture Cladding

Transforms your home furniture with beautiful, highly resistant surfaces

Dekton® Slim creates furniture with unprecedented performance: tables that are resistant to everything and doors that neither scratch nor stain. The size possibilities are endless since it is cut to size and easy to install.

New

Four Reasons to Choose Dekton® Slim for your Bathroom

Maximum resistance with minimal joints.

Ideal for bathrooms, Dekton® Slim offers cladding that is ultra-resistant to humidity and stains. A highperforming product that does not require any more maintenance beyond a damp cloth.

Its large format measures 126" x 56" covers large surfaces, avoiding a large number of joints and in turn, less dirt.

LARGE FORMAT WITH MINIMAL JOINTS

Its large format measures 126" x 56" covers large surfaces, avoiding a large number of joints and in turn, less dirt.

01

02

EASY INSTALLATION

Thanks to its light weight format with an array of possibilities, everything just got a lot simpler. Its reduced thickness means it can be cut quickly and adjustments can be made on-site with tools for ceramic tiles.

03

LIMITLESS DESIGN

Dekton® Slim is very simple to install and can be cut with great ease. It is the ideal surface to personalize your bathroom with innovative designs.

04

MAXIMUM RESISTANCE AGAINST HUMIDITY IN THE LIGHT WEIGHT DEKTON® FORMAT.

Dekton® Slim offers cladding that is ultra-resistant to humidity and stains, ideal for bathrooms. A high performing product that does not require any more maintenance beyond a damp cloth.

Stairs

Kitchen Countertops

Dekton® is a long-term product for those looking to turn their kitchen into a unique space.

Dekton® is a long-term product for those looking to turn their kitchen into a unique space. It allows installation in one piece with no cuts, no joints, no limits, just the appeal of a completely uniform surface, which fits seamlessly into a variety of different design styles.

Dekton® combines the qualities expected by the chef in all of us. It is a clean surface that is nice to the touch, resistant to all the daily grind that takes place in a kitchen over years of use. An ultra-

sophisticated material for busy everyday life, capable of creating spaces that make preparing food, day after day, a pleasant experience that precedes the pleasure of sharing a meal with friends and family.

It represents beauty and solidity with easy, fuss-free cleaning. The structural density of Dekton® is a breakthrough in engineering and it resists scratches, stains and traces of heat.

Outdoor Kitchen Countertop

Cook with the Sky as your Roof

Cooking is definitely a pleasurable experience and doing it outdoors, usually results in a small social event. Everyday celebrations that we can enjoy with company around a grill. Dekton®, due to its ultra-compact structure, is particularly suitable for installations for outdoor kitchens and barbeques.

Dekton® provides strength and style to these spaces, it gives them an undeniable personality and unlimited practicality. Stains, bumps, utensils at high temperature... Dekton® will resist the demanding use over time while maintaining its unchanging beauty.

It is not affected by ice, sun, sleet, or wind either. When bad weather arrives, Dekton® simply needs an effortless, fuss-free cleaning so that it can showcase its best again.

Bathroom Countertops and Wall Covering

The bathroom is the space in the home, where hygiene and harmony need to express themselves in the best possible way. A peaceful environment devoted to personal care and hygiene - a space to relax and unwind free of any worries.

Dekton®, thanks to its low porosity, is completely waterproof against liquids.

Water glides smoothly without ever penetrating the surface. This, along with unchanging beauty, results in extremely easy cleaning.

Their textures and colors are an endless source of inspiration for the design of water-related areas, we're talking about Dekton®, its possibilities are endless.

Façades

Dekton® is available in large format panels with minimum thickness, rewriting the rules of what is possible with Ultracompact Surfacing materials. Dekton® panels measure 56" x 126" with a thickness range of 8mm to 30mm. Aside from the advantage of its size capabilities, Dekton® is highly resilient and can be installed as part of ventilated rainscreen system, or, due to its

remarkable durability and low moisture absorption, installed as a direct adhere façade, similar to dimensional stones like granite.

Dekton® is the architect's choice when unlimited surface and space designs are required, where color and texture flow freely in all directions inside and out, expressing itself in all of its fullness and versatility.

High Performance All Purpose Façades Designing Without Limits

Large Format Panels: 56" x 126"
Thickness: 8mm , 12mm and 20mm
Flexural strength
Excellent dimensional stability
Resistance to freezing and thawing
Unmatched Color stability

Flooring Solutions

Dekton® Ultra-Compact Tile for Floor & Wall coverings are a universal architectural application material that is better than porcelain for both indoors and outdoors. The revolutionary Dekton® properties allow Architects & Designers total

freedom to design for any application and project. With a variety of sizes and thicknesses, Dekton® is the perfect fit for any project that is considering Large Format Tile!

Dekton® Flooring Advantages

Dekton® has gone through 3rd party TCNA Standards according to ASTM testing methods and in the most important areas of value, exceeds the standards and test results of porcelain tile! When you compare the results in breaking strength (Flexural) or breaking strength (Point Load) or flatness, abrasion resistance, scratching, staining and UV ray resistance, Dekton® is an almost indestructible product!

A Solutions for Stairs

Stairs can be a challenge for the architects and designers that want to cover them with a material that can be adapted to any space, Dekton®, provides the perfect solution and versatility. Dekton® stairs can be presented as raised stairs or traditional stairs because of the different thicknesses, 8mm, 12mm, 20mm or 30mm, allowing you to provide the best application for the most demanding people.

Unlimited Sizes

As a value unmatched by other large format products, Dekton® offers a variety of sizes and thicknesses. From standard nominal sizes of 28"x 28", 56"x 56", 56"x 28" or 62"x 28" 41"x 28", 56" x 41", 56" x 62" and 56" x 31".

Dekton® Bookmatch

From some of our designs, we have created unique, symmetrical and interchangeable references that allow compositions and designs to be made where the veins have continuity between different pieces.

There is a nomenclature of numbers and letters to select the patterns that best suit your needs according to available color and thickness.

Material provided upon request and based on availability. Inquire for availability.

SENSA BY COSENTINO®

Protected Natural Stone

Sensa is a maintenance free premium Natural Stone brought to you by Cosentino, a world leader in the natural stone industry.

Sensa is a granite surface by Cosentino, a high-quality surface that offers such reliable performance that it comes with a 15-year certified guarantee. We travelled all the way to Brazil and India to find the most beautiful stone that nature can create. This stone was chosen following strict criteria of aesthetic excellence that resulted in unique, elegant surfaces with an exotic, yet subtle, touch. Unique. The adjective is well-chosen. Every Sensa slab is different from the rest because each surface has exceptional veining that is found in no other. A product idea for demanding customers who require a material that is resistant to scratches and stains and that offers outstanding performance over time.

Sensa® Crescent Veil

SENSA BY COSENTINO®

Advantages

Sensa Protected Natural Stone with SenGuard™ Adds Elegant Style To Your Kitchen with Long-Term Stain Protection.

- 

100% Stain protection with SenGuard technology.
- 

Does not require sealers or specialized cleaners.
- 

Maintenance-free Premium Natural Stone.
- 

UV resistant - Sustainable for Outdoor Applications.
- 

15-year Transferable Warranty.
- 

Withstands Temperatures of up to 5720 F (3000 c).

Sensa by Cosentino® consists of maintenance-free, high-quality, natural granite offered by Cosentino, a global leader in the natural stone industry for more than 80 years. Sensa by Cosentino® has a revolutionary protective treatment that provides high stain resistance and has a 15-year transferable warranty. You will discover that Sensa by Cosentino® offers you a range of colors to combine with any décor scheme or project. A protective treatment is applied to each slab of Sensa by Cosentino® in Cosentino's modern facilities. This protective treatment has a 15-year transferable warranty that will allow you to continue to enjoy the natural beauty of your Sensa by Cosentino® countertop for a long time. With Sensa by Cosentino®, you will add an elegant touch to your kitchen and will be highly protected against common household stains.

SENSA BY COSENTINO®

SenGuard Protection

SenGuard is a proprietary stone treatment that is used to protect Sensa granite from staining. SenGuard is not a sealer, it bonds to the granite surface like no other sealers can.

The SenGuard treatment, unlike common sealers, allows the stone to breathe by anchoring to the stone lattice while preserving the stone's natural, beautiful color for years to come.

- No sealing required.
- Enters stone lattice and chemically bonds, allowing stone to breathe.
- No special cleaners required. Common household cleaners do not affect the SenGuard protection.
- SenGuard remains bonded to stone.
- Proprietary treatment applied in state-of-the-art controlled environment facility.

Unique Exclusive Design

Works of art that have required millennia to finish are now part of the finest collection in the world.

Cosentino's experts selected these natural stone paintings one by one to bring them from the other end of the globe to the most elegant, personal and exclusive museum: your home.
