CABINETRY

THE
Collection

FALL 2019

Kitchens are more than where we cook. They're where we create special moments, memories, and shared joy with those we love.

Echelon Cabinetry allows you to create so much more than your dream kitchen; we help you craft an experience that will delight you every day. Quality materials, elegant styles, and all the refinements that make your kitchen a seamless extension of your life. With Echelon Cabinetry, you can expect a great experience building and enjoying your beautiful new kitchen.

A legacy of leadership

When Precisionware, Inc. was founded in 1948 as a kitchen cabinet manufacturer in the heart of Pennsylvania, no one imagined that we would be a thriving leader in the cabinetry market 70 years later.

Throughout our history, Echelon Cabinetry has gone through several name changes, been both publicly and privately owned, and has expanded into a national presence. One thing that hasn't changed is our commitment to building high-quality cabinets for our customers. With hundreds of possible door and finish combinations, we have a product to fit every budget and style. Competitive pricing, lead times, and logistics solutions allow us to deliver well-crafted cabinetry at a great value.

Best yet, all of our cabinetry lines are certified for KCMA's Environmental Stewardship Program, meaning you can trust that you are putting a safe product in your home for your family to enjoy for years to come. That's a legacy we're proud of.

**Sustainable.
Durable.
Affordable.
Stylish.**

OUR COMMITMENT TO OUR CABINET PRODUCTS & SUSTAINABILITY

Sustainability has emerged as an important component in our everyday lives, directly shaping our daily activities and the products we purchase. As a leading manufacturer of high-quality wood cabinets, Echelon Cabinetry recognizes the importance of protecting the environment and using resources responsibly.

All our products are **CARB ATCM 93120 Phase 2 and TSCA Title VI compliant**, and we are proud to carry the KCMA's ESP certification.

Introduced in 2006, KCMA developed the Environmental Stewardship Program (ESP) to encourage practices that benefit the environment and communities served by cabinet manufacturers. The ESP certification program holds the cabinetry industry to high standards for their products, forest sustainability and manufacturing processes.

Through the ESP we are systematically reducing our environmental footprint and providing environmentally conscious products to our customers as well.

17-Step Furniture Quality Finish

Consistent quality, long-lasting color, and distinctive wood grain characteristics are your assurance of lasting beauty with Echelon's exclusive 17-step finishing process.

- 1 2** All surfaces are machine- and hand-sanded. Then the dust particles are mechanically removed.
- 3** Pre-stains are applied evenly to provide base color uniformity.
- 4 5 6** Specially formulated stain is hand-sprayed. The stained products undergo a slow drying process. Then a chemical-resistant sealer is applied.
- 7 8 9 10** Sealed products are baked to ensure a complete cure throughout. The sealed surfaces are hand-sanded with ultra fine sandpaper. Products are then quality inspected for cleanliness and smoothness. Catalyzed varnish is applied.
- 11 12 13 14** Product backs are sprayed with a conversion finish. Then they are sanded with fine grit sandpaper. All dust particles are mechanically removed. Product backs are then sprayed with a conversion varnish.
- 15 16 17** Product fronts are sprayed with a conversion finish. Then they are sanded with fine grit sandpaper. Product fronts are then sprayed with a conversion varnish.
